

Estimated Total Time: 245mins or 4.0833hrs

---

Estimated time to write section to request user input, save input into an array (P1.tI): 20mins

Estimated time to test and debug P1.tI: 10mins

---

Estimated time to write section to calculate the sum/total of the user input (P2.mC): 20mins

Estimated time to test and debug P2.mC: 20mins

---

Estimated time to write Exceptions for null or whitespace inputs (P3.wE): 30mins

Estimated time to test and debug P3.wE: 65mins

---

Estimated time to write Exceptions for non-numerical (alphabetical or special characters) inputs (P4.nE): 15mins

Estimated time to test and debug P4.nE: 45mins

---

Estimated to write section to calculate average (PF.aC): 10mins

Estimated time to test and debug PF.aC: 10mins

---

Estimated break times: 3 breaks

Complete P1.tI+test and P2.mC+test, then break.

Complete P3.wE+test, then break.

Complete P4.nE+test, then break.

Complete PF.aC+test.
